FITTED WITH S&G SPARTAN ELECTRONIC LOCK

The high-security electronic lock is operational with a six digit personal code. The lock is certified by ECB•S in accordance with European Standard EN 1300. Battery is located in the keypad itself and can be easily changed should the existing battery run down whilst the safe is closed.

GRADE 1 PROTECTION IN FOUADD MODULER SIZES

A variety of sizes, ranging from 32 to 190 litres, meets every storage and capacity need. The safe has been cash rated upto \$45,000.

A PRACTICAL, OFF-THE-SHELF SOLUTION

The Chubb safes Senator range is ready-to-use on delivery and can be fixed to the floor, as the required bolts are included. For installation in locations with stairs, the door can be easily removed, which reduces the safe's overall weight by approximately 15%. The stylish dark grey colour provides an attractive appearance while the lever handle enhances user comfort.

DUAL-CERTIFIED PROTECTION

The Chubb safes Senator range has been certified EN 1143-1 in burglary resistance for Grade I and EN 15659, LFS 30P for up to 30 minutes of fire resistance by the European Certification Board of Security (ECB•S).

CUSTOMIZATION

Each safe is supplied with one shelf as standard. Additional spares, handles & key escutcheons can be ordered.

CONSTRUCTION

The body of the safe is prepared with a hole for base fixing with a M16 expansion bolt. The overall wall thickness is 40 mm comprising an inner and outer steel skins containing CEN-L concrete. The Safe door thickness is 99 mm comprising a 6mm (*there are 3 metal sheets each 2.0 mm thick outer skin, 3.0 mm thick inner door and a 1.0 mm thick door back panel), 35mm of CEN-L concrete and boltwork. The door is removable and adjustable.
