**Plain Paper
Laser Facsimile
L160**

**Compact, fast and sleek
desktop facsimile and printer**

The sleek and stylish L160 gives you all the benefits of a high-speed Super-G3 fax and a stand-alone printer and copier in a compact desktop package.

Plain Paper Laser Facsimile L160

You'll notice that the L160 doesn't look like other facsimiles you've seen before. And it's not. The sleek and stylish L160 gives you all the benefits of a high-speed Super-G3 fax and a stand-alone printer and copier in a compact desktop package.

Features such as delayed sending, polling and reception restriction lets you manage your fax operations efficiently. Together with an optional handset for telephone features, the multifunctional L160 is ideal for small offices and departments.

Add to this Canon's renowned reliability and robust construction and the affordable L160 looks good from any angle.

No waiting to send

There's nothing worse than waiting around for a fax to transmit. With the L160's Super G3 fax modem you won't have to. It transmits documents at a speed of only three seconds per page*.

Large documents are scanned directly into memory at two seconds per page as it transmits. And if the line is busy, the L160 memorises and sends the document when it has cleared, automatically.

No waiting to receive

Boasting a print speed as fast as a comparable stand-alone printer, there's no waiting to receive documents either.

The L160 produces laser prints and copies at a speed of 14 pages per minute, even while scanning or sending a fax. If need be, you can make up to 99 copies at once.

No wasted time

With the L160's surprisingly large paper capacity of 150 sheets, you won't waste time constantly refilling the cassette when things get busy. In addition, the L160's 30-page automatic document feeder makes light work of faxing or copying large documents.

No loss of data

You won't lose an important document with the L160's 340-page memory#. If the paper or toner runs out, all incoming documents will be safely stored for printing later. Even power failures are no problem; the L160's memory back-up retains stored documents for up to an hour.

Economical auto-switching

Particularly useful for small offices, the fax-telephone auto-switching mode gives you the option to send faxes or make calls on the same line. There's none of the additional costs of installing and renting unnecessary lines.

Efficient operation

With the L160, you'll also enjoy the efficiency of 15 handy one-touch keys and 100 coded speed dial keys for the quick dialling of frequently used numbers. For easy access, the dial search feature lists all stored numbers alphabetically.

The practical L160

- High-speed Super G3 fax (3 seconds per page*)
- Fast 14 pages per minute printing and copying
- Large 340-page memory#
- 150-sheet paper capacity
- 30-page automatic document feeder
- 15 one-touch and 100 coded dial keys
- Ultra High Quality imaging
- Convenient all-in-one cartridge
- Direct mail prevention
- Handset option

High-quality laser prints

Producing laser prints at 600 x 600dpi, the L160 beats traditional thermal and ink jet models hands down, with higher quality and lower running costs. Canon's Ultra High Quality (UHQ) processing technology renders even the most detailed half-tone images with precise depth and clarity.

Clean and easy

Every aspect of the L160 is designed to get the job done, cleanly and easily. Paper is easy to load. The snap-in, all-in-one cartridge makes changing toner and maintenance a breeze, and the design of the internal paper path reduces misfeeds. There's no mess and no hassle.

With all of these features in the one compact package, you've got to admit the L160 really is a practical option for the desk or department.

*Based on sending a standard document (Canon Fax Standard Chart No.1) to a Canon fax excluding control times and without telephone line interference.
#Based on using a standard document (Canon Fax Standard Chart at 4% coverage).

Specifications

FAX UNIT TYPE	
Type:	Standalone facsimile with printer function
Applicable line:	PSTN, PABX
Print technology:	Laser beam printing
FAX SCANNING FEATURES	
Automatic Document Feeder:	30 sheets
Document size:	216 x 355.6mm (max), 148 x 105mm (min)
Speed:	Approx. 3 sec per page
Resolution:	Photo, Super fine, Fine, Standard
Image processing system:	UHQ (Ultra High Quality)
Halftone:	64 shades of grey scale
FAX PRINTING FEATURES	
Speed:	14 pages per minute
Resolution:	600 x 600 dpi
Paper output capacity:	100 sheets
Print cartridge:	FX9 All-in-One laser cartridge (Starter cartridge included)
Other features:	<ul style="list-style-type: none"> • Page collated print on reception (face down print) • Toner save mode • Auto image reduction on reception (100 to 50%)
TRANSMISSION AND RECEPTION FEATURES	
Speed:	3 seconds per page with 33.6K bps modem*
Memory:	340 pages#
Compression method:	MH, MR, MMR
Other features:	<ul style="list-style-type: none"> • Direct transmission • Memory transmission • Error Correction Mode (ECM) • Dual Access • Delayed transmission (116 locations) • Sequential broadcast (116 locations) • Polling transmission/memory reception • Sub address transmission • Relay broadcasting command (by sub address)
SECURITY AND MANAGEMENT FEATURES	
Reports:	<ul style="list-style-type: none"> • Activity Report • Transmission Report • Reception Report • Multi Transaction List • Memory Clear Report • Speed Dial • Group Dial List • User Data List
Other features:	Password user restriction, Direct mail prevention, Confidential transmission (by sub address)

TELEPHONY FEATURES	
One touch dials:	15 locations
Coded dials:	100 locations
Group dials:	Max. 15x50 locations**
Other features:	<ul style="list-style-type: none"> • Dial Search • Redial (automatic and manual) • FAX/ TEL auto switch • Extension telephone hook-up • Answering machine hook-up • Remote reception • On hook key • Optional telephone handset
COPIER FEATURES	
Copy resolution:	300 x 300 dpi
Speed:	14 pages per minute (mono)
Multiple copy:	Up to 99 copies
Reduction / Enlargement:	50% - 200%
OTHER FEATURES	Auto Summer time adjustment
PC REQUIREMENT	
PC interface:	USB
Windows 2000:	Pentium 133MHz, 64MB RAM (128MB or higher is recommended)
Windows XP:	Pentium 233MHz, 64MB RAM (128MB or higher is recommended)
Others:	15MB of free hard disk space, 256 SVGA monitor or greater, USB cable 5m in length or shorter
PC RELATED FEATURES OPTION	
Printer function:	Yes
Applicable OS:	Windows / 2000 / XP / Vista / Mac OS X 10.2.8 onwards
Printer Description language:	UFR II
GENERAL FEATURES	
Dimensions with trays folded:	(W x D x H) 400 x 386 x 221mm
Weight:	Approx. 9 Kg (including toner cartridge)
Powersource:	AC 200-240V 50-60Hz
Speed:	14 pages per minute
Consumption:	Max. 700W; Standby approx. 3W
<p>* Based on sending a standard document (Canon Fax Standard Chart No.1) to a Canon fax, excluding control times and without telephone line interference.</p> <p>** The One-touch dials can also be used as Group dial keys. Up to 50 Coded speed dials can be programmed into each Group dial key.</p> <p># Based on using a standard document (Canon Fax Standard Chart at 4% coverage).
