L51W BENEFITS

Latest LED Technology, Stylish Looks and Easy Transport 1.2kg

3D Playback and Microsoft Office Files, Videos, Still Images or Other Documents without a PC connection, via Pre-load, SD Card or USB

Support of Wireless Transmission from mobile Devices

Almost Instant Start-up and Shut Down with Direct Power Off

WXGA Resolution with HDMI and Composite Inputs

High Contrast (4000:1) Vivid Colourful Images with Genuine State of the Art ECO Performance

A LIGHTWEIGHT PORTABLE PROJECTOR THAT OFFERS PLAYBACK VIA PC CONNECTION, USB, SD CARD, MEMORY STICK OR 1GB ON-BOARD RAM

The new L51W LED Projector is the perfect design for mobile use, with it's small form factor and light weight of 1.2kg, internal 1GB storage and playback via SD card, USB stick or USB connection. The L51W makes an instant impression in any meeting room with it's minimalist control buttons and designer styling.

The DLP technology with LED light source provides a 500 ANSI lumen WXGA accurate and colourful image that is prefect for instant projection in normal office lighting conditions. Advanced functionality also includes an HDMI in and an Office viewer function that mean you can simply copy and play your Microsoft® Office files without a computer connected.

Other features include lens shutter, auto keystone correction, quick start operation and direct power off. A 2W speaker and video playback functionality make the L51W an ideal mobile multimedia solution, whilst you can take an SD card straight from your camera and instantly playback your photos in outstanding large size. At the same time, the L51W follows the NEC Green Vision initiative with mercury-free manufacturing and the use of LED technology that draws less power.

The L51W features an easy slide front cover for convenient image shut-down
