WS-TECH
Coin Counter Machine

Coin Master CM2

Coin Master CM4

The Coin Master series counter machine is a fast, compact single-denomination coin counter.

The Coin Master series counter machine can be used to verify known coin amounts, count pre-sorted coin or packaged fixed batches of coin into paper tube or bags.

WS-TECH
Coin Master Series
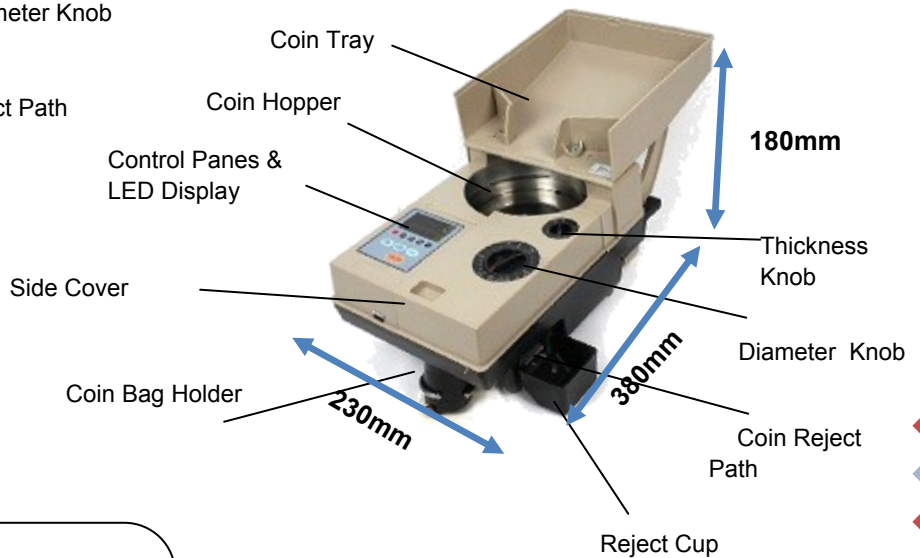

Replaces hand counting

The Coin Master series counter machine provides a cost-effective alternative to time-consuming hand counting for retail, vending, arcades or any business with an abundance of sorted coin requiring processing .

Fast, Efficient, Flexible

At an average speed of 2,000/ 2,500 coins per minute (CPM), the CM2/CM4 places counted coins into bags using preset or operator-selected batch stops. Batch stops can be customized by denomination – up to nine denominations. Smaller coins than those being processed are automatically off-sorted.
